

Mission: The opioIDENTITY of America

OPERATION OVERLOOKED

1. IDENTIFY overlooked variables
2. ANALYZE their effect on specific subpopulations
3. EVALUATE their relationship to the opioid crisis

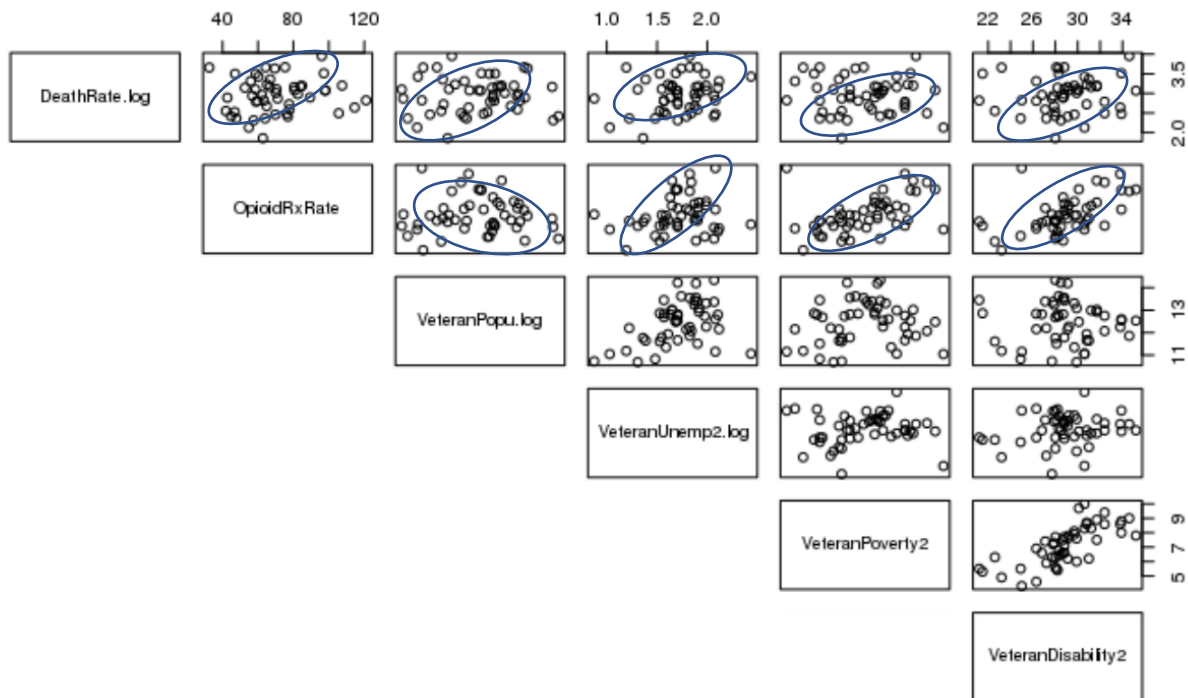

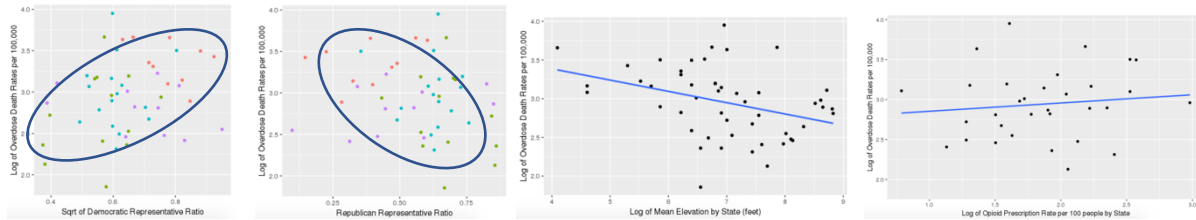

STEP 1: IDENTIFY

Political party in power → state policies
Altitude → respiratory depression
Minimum wage → purchasing power
Veterinarians → prescription opioid volume
Veterans: disabled, unemployed, impoverished → synthetic opioid volume

STEP 2: ANALYZE

CORRELATION (R)	Log of Opioid-Related Deaths
Sqrt.Democrats	0.2322226
Republicans	-0.211807
Log.Altitude	-0.3569911
Minimum Wage	N/A
Veterinarians	N/A
Log.Total Veterans	-0.07493056
Log.Unemployed Veterans	0.2322802
Impoverished Veterans	-0.05005902
Disabled Veterans	0.08607311
Log.Opioid Prescription Rate	0.1162814

STEP 3: EVALUATE

Possibly alleviate the opioid crisis in the long-term by conducting detailed research on and monitoring veterans using prescription opioids.
